972/BASIC
SINGLE BLADE MANUAL COLLARETTE CUTTING MACHINE

SINGLE BLADE MANUAL COLLARETTE CUTTING MACHINES CLASS 972/BASIC

The single blade manual collarette cutting machine class 972/BASIC can produce one collarette tape from any tubular fabric with high accuracy and productivity. The machine is equipped with a crash cut blade in HSS steel cutting by pressure on and hardened steel roller.

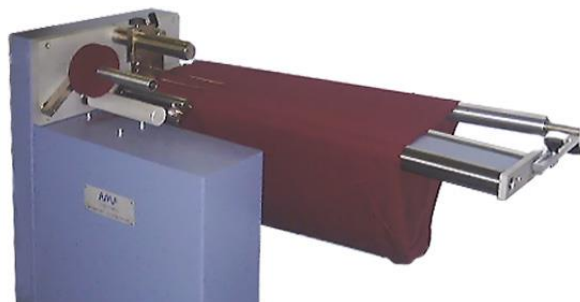

AMP PISANI also offers a complete range of multiple blade manual collarette machines (from 2 to 5 blades)

TECHNICAL FEATURES

- Maximum cutting width of the main strip 180 mm.
- Cut with crush-cut knives on a hardened steel roller with minimum cutting width 16 mm.
- Main motor equipped with a clutch system for a smooth start-up and slow-down of the speed at the beginning of the cut.
- Adjustable rewinding speed of the collarette tape to obtain rolls without tension even for very elastic fabrics with lycra.
- An additional blade group 972/GR can be added on request for trim cut of the tape

DEVICES ON REQUEST

- 972/ROL Auxiliary inclinable roller
- 972/HSP Pulley for cutting speed 38 Mt/min
- 972/MONO 230V Single-phase power supply
- 972/GR Auxiliary blade group

DEVICE 972/ROL

TECHNICAL DATA

- ♦ Cutting speed . . : 22 mt/min
- ♦ Tubular diameter :from 30 to 120 cm
- ♦ Voltage..... : 230 or 400V 50/60Hz 3phase (230V 50/60Hz single phase on request with extra cost)
- ♦ Installed power : 0,3 kW
